The whole day was spent on the private calendar with the result that several balls were presed among them one to pay the heirs of John Roach, the shipbuilder, \$330,000 on a claim which has been pending a dozen sears, and another to pay C. C. Bosbyshel, superintendent of the Phila delphia mint \$17,000 abstracted from the gold vaults by a weigh clerk. After disposing of some minior bridge bills and pension bills coming over from the asson last Friday night, the House resumed consideration of the bill to pay \$3.50,000 to the heirs of Air John Roach on account of his ship contracts with the sovernment. The claim and its history were exhaustively discussed. Mr. Robb (Hem Mo) moved to recommit the bill the motion was lost, 57 to 140, and the bill was pussed.

The claim of C. C. Rosbyshell, super intendent of the Philadelphia mint for \$17,000 was favorably acted upon, as were several other bills and then at 5.05 P. M. the Plonse took a recess until 8 P. SPIES IN TIMES OF PEACE.

The inauguration of a New Form of Privateering.

In view of the imminence of war be-ween this country and Spain there are we matters which specially demand the ttention of the American people -- namethe question of privateering, a term conering which much misapprehension pre-

Mith regard to espionage, there is, strangely enough, no means in the United States of dealing with it in time of peace or even on the eve of hostilities. Strictly speaking, no civilian can be brought within the jurisdiction of the military courts of law before war has actually place there is nothing statutory in the is found taking notes of inditary and mayal defences of the United States; or may all defences of the United States, or who has managed by dint of perifidity and enaming to possess himself of valuable secrets in connection with the American arms, fleet and fortified posts. In this the 1 inted States stands almost alone, and there is not a single power of the Old World, not even England, which has not enacted legislation for the purpose of providing condain punishment for those who make it their business to surprise and betray secrets that belong to the State.

NO PUNISHMENT FOR A SPY. In order to bring this condition of affairs note thoroughly home to the minds of In order to bring this conquious of annuals of the readers of the Tribune, I would add that I a Spanourd or any other ahen, or even an American citizen, were found within the bias of the fortifications of Sandy Hook, with drawings or photographs in his pocket of the defences there, he could nother be imprisoned nor subjected to any legal form of punishment II be were an alien, the authorities would have at their disposal the very poor tenedy of expulsion, which would enacted by mean that they would ship him abroad in order to turn his information to good account in Madrid; while if the were either a native-born American crizen or a naturalized one there would be no means whatever of bringing him within the tolks of the law so long as war had not been declared. Indeed, were the instance themselves liable to prosecution in Anarra in courts for unlawful imprisonment, and while it may sufely be taken for granted that no American jury would ever faint a vertical against the new themselves liable to prosecution in Anarra in courts for unlawful imprisonment, and while it may sufely be taken for granted that no American jury would ever grant a vertical against the new teners in the most in tribunal dording the case merels on its logal ments would be compelled to give judy ment in favor of the sig.

If one are some people in this country who hold that spring is the one offence to which a civilian can be tried and punished by continuational in tendered amenable to a courtment of or deprived of the safe-granted. No civilian can be tradered amenable to a courtment of the deprived of the safe-granted of an ordunary tribunal innews war has been declared or martial law proclammed. I note the organisances were have been declared to mitted and military defences of the contribution of secrets relating to secure possession of secrets comments and to some foreign power may be smarthly punished by the be readers of the Pribune, I would add

IN CASE OF WAR.

The matter is one of all the more importaine since in the event of war a question would certainly arise as to the ne sum would certainly arise as to the egality of dealing with those aliens or streens found conveying information to spain. Of course if the spies were found inside the lines of a fort or arsenal and attested by uniting or naval men there would be no doubt as to the jurisdiction of the court martial, which would have a perfect right to inflier the sentence of the the

With regard to privateering, a great deal of mesonseption concerning the present meaning of the word prevails. Pay attention in the old sense of the word has gone our of fashion. It has been condemned by all the civilized powers of Europe with the exception of Spain, and it is extremely doubtful whether even the latter would done to five in the face of cyclical near the property of former days was nothing more nor less than that Ir consisted in private individuals intensity by vessels at their own expense as warshaps, mananing them and othering their with the commission, which entitled the owners of the simply the major portion of any loot that their vessel unght seems to go to the major portion of any loot that their vessel unght seems by plandering merchant shopping belanging to the enony. A small percentage of the so called "brizes" of the vinture were supposed to go to the government as a good pro que for granting the letter of marque. THE PROBLEM SOLVED.

Me dicat Discovery Tested.

Results of the Test in Various Form⁸ of Dyspepsia.

Chronic indigestion or dyspepsia, while a very common trouble, has for some time been looked upon by able physicians as a serious thing, and that no time should be lost in treating it properly at the start, because recent researches have shown that the most serious, fatal and incurable diseases have their origin in simple dyspepsia or indigestion.

Diabetes is simply one form of indigestion, the sight's disease that blumen is not properly assimilated.

This learn and starchy food not being assimilated.

This learn and the beyond question that dyspepsia makes a fertile soil for the seeds of consumption and ldyspepsia are twin diseases, and it is beyond question that dyspepsia makes a fertile soil for the seeds of consumption.

But the trouble has been to find a remedy that could be depended gron to cure dispepsish, as it is notornously obstinate and difficult to cure.

This has been the question which has puzzled physicians and dyspeptics alike, until the question was solved three years ago by the appearance of a new dyspepsisa cure in the medical world known as Stuart's Dyspepsia. Tablets, which it was claimed was as a certain, reliable cure for every form of stonlach trouble.

Physicians, however, would not accept such statements without first giving the new remedy many tests and carefully observing results.

For three years the remedy has been thoroughly tested in every section of the country and with supprising and satisfactory results.

Stuart's Dyspepsia Tablets can honesty claimed to be a specific, a radical lasting cure for indigestion in the various forms of acid dyspepsia or sour stonach, gas or wind on sale at all druggists at the nominal price of 50 cents per package.

No extravagant claims are made for the remedy. It will not ever not placed before the public until this three yours thal left no loubt as to their value and they have recomby been placed in the trade and can be found on sale at all druggists at the nominal price of 50 cents per package.

No extravagant claims are made for the remedy. I

Ireland came to the State Department
and went to the office of Assistant Secretary Day. He was admitted at lonce,
evolently by appointment. The archbishop remained with Judge Hay about
hilt on hour and soon after his departme the assistant secretary started for
the White House.

The archbishop declined to discuss the
purposes of his calls, saying it was mereby to pay his respects, and showed annoyance when inquiry was made as to the
direction of the papal influences. While
the call renewed the talk about papal
mediation, the general impression prevailed throughout official circles that no
mediation by the pope and on influences
in that direction would be seriously enment.

Lobengula's Justice.

Only one old tree marks the spot where the king used to set administering justice to his subjects. A large part of this justice consisted in decreeing death among his indimas or prominent men who had excited his suspicions or whose earth he desired. whose cattle he desired to appropriate. Sometimes he had then denounced— "smelled out," they called it—by the simelet out, they called it—by the witch doctors as guilty of practicing magic against him. Sometimes he dispensed with a pretext and some a messenger to the but of the doomed man to tell ger to the but of the doomed men to tell him the king wanted him. The victim, often ignorant of his fate, walked in front, while the executioner, following close behind, suddenly dealt him with the knobkerry, or heavy ended stick, one tremendous blow, which crushed his skull and left him dead upon the ground. Women, on the other hand, were strangled.—"Impressions of Africa," by Professor Bryce. os," by Professor Bryce.
